Where Recommended Retail Prices are not available at the time of going to press, they have, where possible, provided Suggested Retail Prices.

All sizes, weights and capacities are approximate. It is possible that descriptions may have changed if the supplier, for instance, has altered his specifications or that there has been a change of the supplier after the Catalogue has gone to press.

This catalogue, effective from January 20th 1986, supersedes all previous catalogues or brochures and remains in effect until further notice.

Now you can choose telephone products in the same way as you choose all your other household items. You buy your telephones outright and you only pay rental on the exchange line.

All Argos telephones are fully approved for use with British Telecom systems. They plug straight into the new style B.T. jack-socket.

What if you don't have the new style British Telecom jack-socket? Simply telephone your local B.T. sales office and they will arrange for installation. They will convert all your existing telephone connection points to the new jack-socket system for a small charge.

The number of telephones you can connect to a line is determined by the "Ring Equivalent Number" (REN) of each telephone you wish to connect. The maximum REN for a B.T. line is 4. This means for example, that a maximum of 4 telephones each with a REN of 1 could be connected to the same line.

Remember, when you buy your phone, you only pay rental on the exchange line.

\* Inphone and Viscount are Trade Marks of British Telecommunications.
